Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on October 4, 2007 has been entered.

Claim Objections

Claim 42 is objected to because of the following informalities: claim 42 is listed as canceled and original in the listing of the claims filed October 4, 2007. For examination purposes, original claim 42 has been addressed. Appropriate correction is required.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

Art Unit: 3761

Claims 1 – 2, 4, 7, 10 – 11, 15 – 16, 18, 20 – 21, 23, 28 – 29, 33 – 34, 37 – 38, 40, 42 – 43, 46 – 47, 51 – 52 and 55 are rejected under 35 U.S.C. 103(a) as being unpatentable over Melbye et al. (US 5,681,302) and further in view of Carr et al. (US 5,462,537).

As to claims 1 – 2 Melbye provides a disposable garment, the disposable garment comprising: an outer layer and an elastic inner layer (figure 5), wherein the elastic inner layer has the claimed perimeter and opening (col. 4, lines 20 – 46) as shown in figure 5. The perimeter of the inner layer is bonded to the outer layer and both the inner and outer layer form the claimed regions as shown in figure 13. Likewise, figure 13 shows the narrowest portion garment to be located in the crotch region.

The difference between Melbye and claim 1 is the provision that the crotch region is equal or less than 4 inches.

Carr teaches a garment wherein the crotch region is less than 4 inches as set forth in col. 4, lines 13 – 19.

It would have been obvious to one of ordinary skill in the art to modify the crotch of Melbye because the crotch region of less than 4 inches permits the absorbent structure to fit closely and conformably to the perineum area as taught by Carr in col. 4, lines 13 – 19.

As to claims 4, 7, 11, 23, 29, 40, 42 – 43, 4 and 55, see the abstract and figures of Melbye.

Regarding claims 10, 28 and 46, Melbye discloses an elastic layer in both the longitudinal and lateral directions as set forth in col. 4, lines 20 – 60.

With reference to claims 15 – 16, 33 – 34 and 51 – 52, the examiner contends that any length or portion thereof may be considered in order to meet the claimed limitation.

As to claim 18, see figure 13 of Melbye.

With reference to claims 20 – 21, see the rejection of claims 1 and 13.

Regarding claims 37 – 38, see the rejection of claim 1 and col. 1, lines 4 – 13 of Melbye.

Response to Arguments

Applicant's arguments filed October 4, 2007 have been fully considered but they are not persuasive.

With respect to the applicant's argument that Melbye does not teach or suggest a disposable garment having an elastic inner layer wherein the elastic inner layer defines an opening located in an internal position to the elastic inner layer perimeter and wherein the opening is a slit of aperture through a bodyfacing surface of the elastic inner layer, the examiner disagrees. Melbye discloses such a structure in col. 4, lines 20 – 46.
